

CONTENTS OF VOLUME 23

Number 1

The Fatigue Limit Characteristics of a Range of Granular Bainitic Microstructures	1
J. H. BULLOCH (South Africa)	
Thermal Stress in Toroidal Elasticity	13
H. A. LANG (USA)	
Cavitation in Superplastic Alloys and the Effect of Hydrostatic Pressure	31
JOHN PILLING and NORMAN RIDLEY (UK)	
A Critical Review of Fuel Coolant Interactions with Particular Reference to $\text{UO}_2\text{-Na}$	65
H. SCHINS (Italy)	
An Asymptotic Solution Procedure for Power Law Creep and Non-linear Deformation Problems	89
D. A. JOBSON (UK)	

Numbers 2 & 3

Prolegomena to the Issue on Material Instabilities	97
The Unity of Plastic Deformation and Crack Growth	99
A. S. KRAUSZ and K. KRAUSZ (Canada)	
The Dynamics of Slip Band Formation in Single Crystals	113
H. NEUHÄUSER (Federal Republic of Germany)	
A Review of Experimental Observations and Theoretical Models of Dislocation Cells and Subgrains	137
ROBERT J. AMODEO and NASR M. GHONIEM (USA)	
Plastic Instabilities, Dislocation Patterns and Nonequilibrium Phenomena . . .	161
D. WALGRAEF (Belgium) and E. C. AIFANTIS (USA)	
Plastic Instabilities: Classification and Physical Mechanisms	197
Y. ESTRIN (Federal Republic of Germany) and L. P. KUBIN (France)	
On the Localization of Strain in Shearing Motions of Ductile Materials	223
BERNARD D. COLEMAN and MARION L. HODGDON (USA)	
Theoretical and Experimental Bounds for Shear-band Bifurcation Strain in Biaxial Tests on Dry Sand	239
I. VARDOULAKIS (USA)	

399

On the Localization and Postlocalization Behavior of Plastic Deformation. I. On the Initiation of Shear Bands	261
HUSSEIN M. ZBIB and ELIAS C. AIFANTIS (USA)	
On the Localization and Postlocalization Behavior of Plastic Deformation. II. On the Evolution and Thickness of Shear Bands	279
HUSSEIN M. ZBIB and ELIAS C. AIFANTIS (USA)	
On the Localization and Postlocalization Behavior of Plastic Deformation. III. On the Structure and Velocity of the Portevin-Le Chatelier Bands	293
HUSSEIN M. ZBIB and ELIAS C. AIFANTIS (USA)	

Number 4

Calculating the Performance of Engineering Structures: National Approach to the Use of PSA in the Federal Republic of Germany	307
P. M. HERTTRICH (FRG)	
Use of Probabilistic Safety Assessment in Re-evaluation and Backfitting	347
G. DESAEDELEER (Belgium)	
Mechanical Anisotropy of Textured AZ31B Magnesium Alloy Tubing	363
G. SAMBA SIVA RAO and K. LINGA MURTY (USA)	
Estimation of Energy Dissipation in Alloys due to Stress-induced Martensitic Transformation	381
YOSHIO SATO and KIKUAKI TANAKA (Japan)	
Book Review	395
Announcement	397
